

Dr. Jennifer Appoo Publications

- Jones HP, **Appoo J**, Benkwitt CE, Borrelle SB, Dunn RE, Epstein HE, Fowlke LA *et al.* (2025). The circular seabird economy is critical for oceans, islands and people. *Nature Reviews Biodiversity*, 1-14. DOI: 10.1038/s44358-025-00099-w
- Roesch MA, Latsha J and **Appoo J** (2024). Nocturnal feeding observation of Seychelles sucker-tailed gecko, *Urocytonyx* *inexpectata* (Stejneger, 1893), on the nectar of Seychelles pitcher plant, *Nepenthes pervillei*. *Herpetology Notes* 17:735–738.
- **Appoo J**, Graham NAJ, Jones CW, Jaquemet S, and Bunbury N (2024). Seabird nutrient subsidy alters size and resource use of functionally important mangrove macroinvertebrates. *Ecosphere*, 15(12), e70121. DOI: 10.1002/ecs2.70121
- **Appoo J**, Bunbury N, Letori J, Hector A, Gendron A, Graham NAJ, Rocamora G, Le Corre M and Jaquemet S (2024). Seabird presence and seasonality influence nutrient dynamics of atoll habitats. *Biotropica*, 56, e13354. DOI: 10.1111/btp.13354
- **Appoo J**, Bunbury N, Jaquemet S and Graham NAJ (2024). Seabird nutrient subsidies enrich mangrove ecosystems and are exported to nearby coastal habitats. *Isience*, 27(4). DOI: 10.1016/j.isci.2024.109404
- Sanchez CL, Bunbury N, Mortimer JA, A’Bear L, **Appoo J**, Betts M *et al.* (2024). Small-scale movements and site fidelity of two

sympatric sea turtle species at a remote atoll. *Marine Biology*, 171(4): 91. DOI: 10.1007/s00227-024-04414-5

- Ensanya-Volle O, **Appoo J**, Bunbury N, Clucas G, Khan N, Rocamora G, Sanchez CL and Fayet AL (2023). Differences in foraging range between white-tailed tropicbirds breeding on inner and outer Seychelles Islands. *Marine Ecology Progress Series*, 724, 141–154. DOI: 10.3354/meps14454
- Fayet AL, Sanchez CL, **Appoo J**, Constance J, Clucas G, Turnbull LA and Bunbury N (2023). Marked differences in foraging area use and susceptibility to predation between two closely-related tropical seabirds. *Oecologia*, 1–13. DOI: 10.1007/s00442-023-05459-x
- Mortimer JA, **Appoo J**, Bautil B, Betts M, Burt AJ, Chapman R, Currie J, Doak N, Esteban N, Jupiter T, *et al.* (2022). Long-term changes in adult size of green turtles at Aldabra Atoll across 35 years: clutch size, sexual dimorphism and growth rates. *Marine Biology*, 169(10): 123. DOI: 10.1007/s00227-022-04111-1
- **Appoo J**, Cagua EF, van de Crommenacker J, Burt AJ, Pistorius P, Taylor FE, Richards H, Haupt P, Doak N, Fleischer-Dogley F and Bunbury N (2021). Population dynamics of coconut crabs (*Birgus latro*) on Aldabra Atoll, Seychelles. *Marine Ecology Progress Series*, 665: 103–113. DOI: 10.3354/meps13672
- Bodin N, Govinden R, Souffre A, Adam PA, Morgan M, Collier T, **Appoo J**, Burt AJ, Sanchez CL, Fleischer-Dogley F and Chassot E (2020). Morphometrics of 39 fish from the Seychelles artisanal

fisheries. *Journal of the Marine Biological Association of the United Kingdom*, 100: 1327–1336. DOI: 10.1017/S0025315420001290

- Millett JE, Accouche W, Crommenacker J, van Dinther M, de Groene A, Havemann CP, Retief TA, **Appoo J** and Bristol RM (2019). Conservation gains and missed opportunities 15 years after rodent eradications in the Seychelles. In: Veitch CR, Clout MN, Martin AR, Russell JC and West CJ (eds.) *Island invasives: scaling up to meet the challenge*, pp. 580–587. Occasional Paper SSC no. 62. Gland, Switzerland: IUCN. DOI: 10.2305/IUCN.CH.2019.SSC-OP.62.en
- **Appoo J**, Sanchez CL, Burt AJ, Richards H, Van de Crommenacker J, Currie J and Fleischer-Dogley F (2019). The use of Aldabra and its protected waters by marine mammals. *Seychelles Research Journal*, 1: 166–179.
- Woodall L, Stefanoudis P, Allcock L, **Appoo J**, Belmont C, Fassbender N, Giddens J, Harlay J, Labiche D, Marie S *et al.* (2019). First Descent – To explore and conserve the Indian Ocean 2019-2022. *Deep Sea Life*, 13: 2–4.
