Facilities & Administration Section

9th April 2026

Commencement of Phase 2 Renovation Works – Anse Royale Campus

Dear Staff, Students and Stakeholders,

The Facilities and Administration Section would like to inform all concerned that the UniSey Anse Royale campus will be commencing Phase 2 of its renovation programme, as outlined below:

Renovation Details:

- **Start Date:** Monday 13th April 2026
- **Estimated Duration:** 26 weeks
- **Scope of Works:** Phase 2 renovation works, including but not limited to:
 - Structural enhancements
 - Refurbishment of classrooms and office spaces
 - Upgrading of electrical and plumbing systems
 - Internal and external painting works
 - External landscaping and site improvements

Please be advised that, owing to increased construction activity and heavy vehicular movement within the vicinity, the front entrance to the campus has been temporarily closed in the interest of safety.

All access to the campus has been temporarily redirected to the NSC gated entrance, which will remain the primary point of entry until further notice.

In line with health and safety requirements, appropriate signage and precautionary measures have been clearly demarcated around all designated work zones. All staff, students, and visitors are kindly requested to strictly observe these measures and adhere to the indicated access routes at all times.

The University appreciates your continued cooperation, patience, and understanding as we undertake these essential improvements to enhance our campus facilities.

Thank you.
