

GROUP 6

BUS SYSTEM GROUP

The bus system – perspectives from bus users and non-bus users

Our group would like to assess the current status of the bus system in Mahé and passengers' satisfaction, based on passengers' perceptions and non-bus-users' attitudes. In this survey, you will be asked about your bus experience and feelings. This is an anonymized survey, and it will take <10 minutes to complete it. Seychelles Public Transport Corporation, Seychelles Planning Authority, and other stakeholders pay close attention to the survey's results. The results would hopefully provide evidence to seek improvements of the bus system on behalf of local people.

We appreciate your kind help!
